 Larry:

I hope your summer is going well. I am forwarding you an email that highlights a new development related to the NOAA pesticide biops in the Northwest. Northwest Environmental Advocates has petitioned the Oregon Environmental Commission to initiate rule making to adopt the Reasonable and Prudent Alternatives in the NOAA biops for pesticides. I have little doubt that this is a prelude to a lawsuit on this by NEA. I will be talking with Dick Pedersen or Oregon DEQ about this in a few minutes. He has indicated he has asked staff to get in touch with you directly on status of the negotiations between EPA and NOAA. Let me know when you would like a briefing from us.

Dennis
